Subject: Bristol Bay permit information request

Hello Terri,

As you know, Bristol Bay tribes have asked us to invoke our authority under CWA section 404c. To inform our response we would like to better understand the number and nature of permits that have been issued. Can your staff generate a report from ORM2 giving us the following information for the Nushagak and Kvichak watersheds: number of permits issued, type of permits and area filled (or linear feet of stream channel)? I understand that older permits may not have all the information we are requesting so limiting the search to the time frame in which ORM2 has all the information is adequate.

Let me know if this is a problem for your staff, and we appreciate your help with this request.

Thank you,
Marcia
